A POINT FOR CLEVELAND.

The democratic president of the United States told the people that the poor are growing poorer, that the country is worse off than ever so far as the working people are concerned. Here is a pointer for Mr. Cleveland and his democratic friends. The condition of the working people can be very correctly judged by the condition of the savings banks. If the number is decreasing and the deposits are declining, then one might easily conclude that the wage-workers are not prosperous, but if one sees a marvelous growth in the savings bank system, then it will be fair to presume that the wage-workers are prosperous.

The controller of the currency of the United States has submitted his report. Near the close of 1887 the controller showed that 644 savings banks, reported officially, aggregate deposits of \$1,157,867,000. At a corresponding date this year the controller has received official returns from 748 savings banks hold deposits of \$1,248,072,000. The comparative figures show that the past year has witnessed an increase of seventy-nine in the number of savings banks and about \$90,000,000 in the amount of deposits. This increase in the number of savings banks is more than twice as great in the single year as in eight years preceding, and the increases in deposits is as great in the one year as in three years preceding.

The apparent increase in official savings bank returns can best be shown by taking the figures from the currency reports of a series of years. We will begin at about the date when the aggregate deposits first reached \$1,000,000,000. The growth since that time has been as follows:

Year.	Banks.	Deposits.
1882.....	639	\$ 950,000,000
1883.....	639	1,024,000,000
1884.....	644	1,084,000,000
1885.....	644	1,123,000,000
1886.....	638	1,144,000,000
1887.....	748	1,248,072,000

There is no country anywhere that can make such a showing as this. The money in the savings banks, of course, is deposited largely by mechanics and operatives. The American working people have more money in banks than the wage-workers of Great Britain, France and Germany combined.

The largest new enterprise reported for some months is that of \$25,000,000 company composed largely of New England capitalists, organized at Fort Payne, Alabama, to develop the mineral interests of large properties in and around that town. Among the active men in this great venture are J. W. Spaulding president; Hon. D. H. Goodell, Henry B. Pierot and other leading New England men. It is stated that this company will establish a number of iron enterprises, and that among them will be three furnaces of 200 tons daily capacity, a rolling mill, etc. It is a big enterprise and its organization means the movement southward not only of the heavy investments of New England money drawn to Alabama by what they have seen of its wonderful resources while on their investigating tour. Yet there are newspaper men at the south who declare the capital and energies of the north is not needed or desired down there.

In his account of the recent robbery of an express car on the Illinois Central railroad, the express messenger says: "The robber had a large nickel plated pistol which looked curiously long." Yet, that's a very nice pistol, he frequently they look "curiously long" to a man at whose face they are suddenly and unexpectedly leveled. They tell of a merchant in Kansas, says the New York Tribune, who bought a most terrible pistol for his clerk, who slept in the store. But still the merchant was robbed one night. " Didn't you hear the robber? " he inquired of his clerk. " Yes, " replied the clerk, " I heard him and saw him plainly, and I was going to pop him. But then, I said to myself, suppose I should miss him. Just then he turned and saw me. He pointed a pistol at me that was ten feet long, eight, say way, and I went under the bed clothes."

Cal. Bruce must have gone off on a vacation somewhere. No one seems to have heard of him lately. A few weeks ago, as the great claim agent of the democratic party, he was heard from about every fifteen minutes declaring that the great underworld had earned pretty much everything by storm. The country ought to rejoice that Cal. Bruce is really and absolutely taking a rest. His name did get into print the other day after the election of officers for the East Tennessee, Virginia & Georgia Railroad Company, when it was found that he had been chosen as vice-president of the corporation. Although a railroader himself, Mr. Bruce failed to railroad the country's vote into the democratic camp.

To cut down a tree at five o'clock in the morning, make it into paper pulp and have the public reading newspapers printed on it at five o'clock in the afternoon, is bustling things, yet the English people think, but we Yankees can show them better time than that, if we try. They printed the above facts as phenomena in American "git up and git," but we have the well established fact of an Ohio farmer shearing a sheep out morning and wearing a suit of clothes next morning made of the wool. The wool was cleaned, carded, spun, woven, fullled, die-dyed and made up inside of twenty-four hours. Yankees can make things nicely, if they try.

The *Baron* (now Scottie) newspaper printed liberal extracts from President Cleveland's late message. The headings used by the *Baron* were grotesque, of which these are specimens: "Suffering in the States," "Cleveland's

last message graphically describes the deplorable condition of the people of the United States. "They are crushed by monopolies, land shark combines and pension swindles, and are defied by the blacks of Hayti." It can not be denied that this summary of the document is based on its contents. No person ever before, in his rage and disappointment, so roundly abused his own country and countrymen.

Major Powell, of the geological survey, states his confidence in the storage reservoir plan as a means of irrigating the great arid plains of the west with surprising emphasis. The problem of placing these reservoirs, of keeping them filled, of protecting them against innumerable dangers, and of releasing the water so as to impart a position to the soil which will make it constantly and permanently suited to agriculture, is simply stupendous. To learn that Major Powell considers it "undoubtedly feasible" is to give it an importance it has never before possessed.

The new Pennsylvania license law fixes rates of liquor licenses: \$500 for large cities, \$300 for small cities, \$150 for villages or boroughs, as chartered towns are called in that state, and \$75 for rural townships in which there are no chartered boroughs. Under this law during the past year the number of licenses in the whole state has fallen from 14,553 to 7,724, and the money received from licensees has risen from \$976,179 to \$1,385,963. In Philadelphia there are only about one-fourth as many saloons as when the new law went into force.

At its recent session the legislature of Vermont made some judicial amendment to the educational laws of the state. Recent statistics showed that Vermont's educational system was singularly defective and that under it illiteracy was increasing at an alarming rate. The amendments provide for greater uniformity in teaching and in school books for raising the standard of teachers and for compulsory education. This looks like an excellent beginning of a much-needed re-

form.

The North Chicago rolling mill has taken a contract from the Union Pacific road for 17,500 tons of steel rails. All the bars have been lighted and the full force of 2,500 men will be put on at once. Other rail mills have all they can do, and it certainly looks as if the election of Harrison and Morton had revived our drooping industries.

President Cleveland writes to a friend in Buffalo: "I am now eagerly counting the days until March 4, when I shall be free." The public is doing the very same thing, as Mr. Cleveland and a majority of the people are in harmony for once.

There is a book out for the holidays entitled, "How to be happy, though married." There are several million men who will be interested in reading that work.

HOPEFUL HENRY GEORGE.

The Apostle of the Single-Tax Theory says the idea is rapidly gathering ground both in Eng and America.

New York, Dec. 21.—Henry George was enthusiastically welcomed back to America Thursday night by a large audience at the Cooper Union, presided over by Thomas A. Johnston, of Cleveland, who made a stormy fight on the single tax platform for election to Congress in the recent campaign. Some of the vice-presidential candidates of the meeting were from the single tax school.

The North Chicago rolling mill has

taken a contract from the Union Pacific road for 17,500 tons of steel rails. All the bars have been lighted and the full force of 2,500 men will be put on at once. Other rail mills have all they can do, and it certainly looks as if the election of Harrison and Morton had revived our drooping industries.

Theodore Parker, the export on taxation, also spoke, denouncing the excellence of the single tax. Louis F. Post and Rev. Hugo O. Pentecost also delivered addresses. Father J. O. S. Huntington, who is noted for his constant labors to alleviate the condition of the dwellers in tenement houses, presented a striking and eloquent figure as he spoke of the misery. He had been witnessing the misery and found fundamental reform in the land system as the best remedy for the evils of overcrowded population. Not half the land in this city is built upon yet thousands of people are dying for want of air, light and proper methods of life in the tenement districts. Tax the vacant unused land so that the owners will be compelled to build upon it, and there will be decent homes for all.

England warns the Bloodthirsty Sultan.

London, Dec. 21.—In the House of Commons Thursday evening Sir James Ferguson, Political Secretary of the Foreign Office, stated that instructions had been sent to the British Ambassador, General Harrison, to the Sultan, strongly, to protest to the Sultan against repetition of the harrowing executions that were committed by his orders Tuesday, and to invite the Co. of other powers in Zanzibar to co-operate with him in warning the Sultan of the disastrous consequences that were likely to follow the commission of such atrocities.

ZANZIBAR, Dec. 21.—Four more executions have taken place under the recent decree of the Sultan.

Harrison and Hayes Confer.

INDIANAPOLIS, Ind., Dec. 21.—General Harrison on Wednesday invited ex-President Hayes to a private conference, and about three hours later ex-President Hayes and Rutherford B. Hayes drove out to General Harrison's house.

It is supposed that General Harrison's main purpose in holding the conference was to obtain from the ex-President some information acquired in his experience as Chief Magistrate. It is believed by some politicians that General Hayes will be offered a mission abroad by the new President.

The *Baron* (now Scottie) newspaper printed liberal extracts from President Cleveland's late message. The headings used by the *Baron* were grotesque, of which these are specimens: "Suffering in the States," "Cleveland's

ANOTHER VICTORY AT SUAKIN.

London, Dec. 21.—Dispatches from Suakin give the result of the battle fought last evening between the British and Egyptian forces. They stormed the redoubts and trenches and after a brilliant engagement lasting half an hour drove the enemy into the bush, scoring a complete victory. The British troops are now encamped in the rebel position.

A friend of the hospital offers a nice easy chair to be voted on during the evening to the largest man in Janesville. Tickets will be for sale by the ladies after next week.

NOT AN EXTRAVAGANT.

MISSED KNIGHT OR MOST FRIENDLY TERM WITH BOTH EXTREMES.

A business letter from a gentleman residing at Lancaster, Penna., who is a parishioner of Rev. Dr. Knight, to his correspondent in this city, in a casual way, speaks of Dr. Knight, of Lancaster, the bishop elect of Milwaukee diocese, in this wise:

"Dr. Knight is a conservative man on all matters, and a steady and hard worker, is a thorough scholar, and a man of travel and ripe experience, used to meeting and dealing with men."

"He is a sound, true churchman, but not an extremist, while he is on the most friendly terms with leading men of both extremes, and will keep at peace with all mankind and with true dignity."

WHAT DRUG WILL REAR THESE ENEMIES?

Wicked Macbeth, who murdered good King Duncan, asked this question to his despair. Thousands of victims of disease are daily asking "What drug will rear the impurities from my blood and bring me health?" Dr. Price's Golden Medical Discovery will do it. When the purple life-tide is sluggish, causing drowsiness, headache and loss of appetite, it is a wonderful vitalizer, which never fails. It forces the liver into per- fect action, drives out superfluous bile, brings the glow of health to the cheek and the natural sparkle to the eye. All druggists.

—We have just added to our stock a large line of steel trimmings for purses and bags. We can please you in any style you want.

—Remember the lecture at the Congregational Church this evening.
